

Changing concepts in hematopoietic stem cells.

Journal: Science

Publication Year: 2018

Authors: Ryo Yamamoto, Adam C Wilkinson, Hiromitsu Nakauchi

PubMed link: 30467158

Funding Grants: Generation of functional cells and organs from iPSCs

Public Summary:

In this Perspective Article, we summarize the recent literature that have identified novel stem and progenitor cell populations within the adult blood system and evidence that they play important roles in maintaining blood system homeostasis.
